

VDH Immunization Program Updates

Meghan Carey, RN – *Nurse Program Coordinator*

March 6, 2024

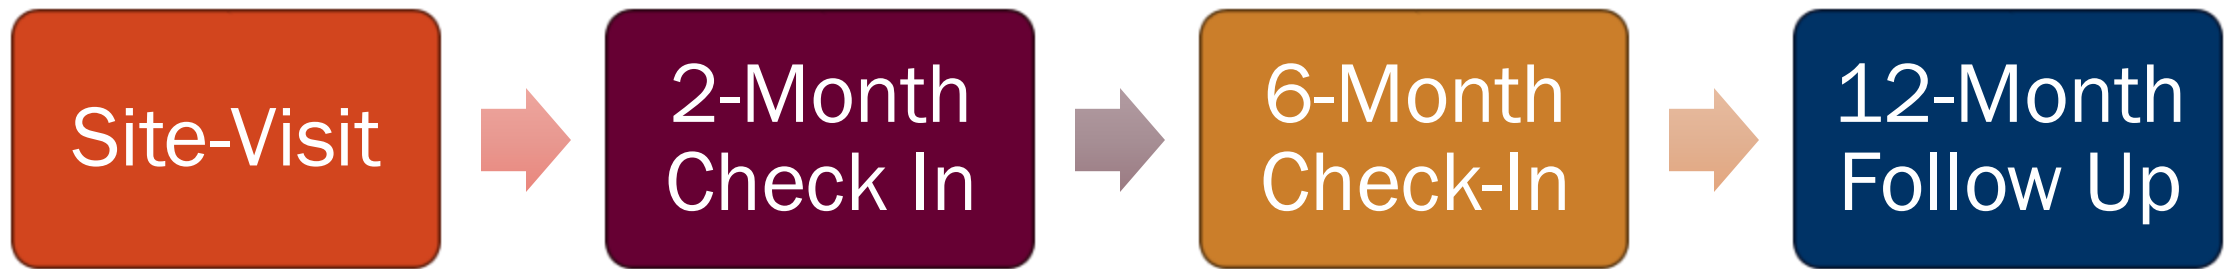

Supporting HPV Vaccination in Provider Offices

- Immunization Quality Improvement for Providers (IQIP)
- Includes assessment of vaccination workflows gap identification, selection of evidence-based strategies and implementation planning
- Provides practices with vaccination coverage rates (including HPV)
 - Allows providers to compare their rates to the county and state rates

IQIP

- IQIP is a 12-month process that includes 4 visits in the IQIP cycle

IQIP Evidence Based Provider Level Strategies

Facilitate Return for Vaccination

Give a strong vaccine Recommendation (Including HPV)

Leverage IMR functionality to Improve Immunization Practice

Strengthen Vaccination Communications

2024 Adolescent Vaccination Campaign

- Run Dates: Mid-August through September 2024
- Raised awareness about adolescent and teen vaccination among VT parents and caregivers
- Prompted kids behind on vaccinations, to get caught up
- Leveraged platforms such as google, Meta Ads, Front Porch Forum, Streaming Audio & Kids VT print

Immunization Designees Small Groups

- Immunization Designees formed small groups in early 2023 to work on topics of interest
- HPV work group currently has 2 members
- Collaborating with the American Cancer Society and SVMV Cancer Center

School Located Vaccine Clinics

- Barre District Office is collaborating with Crossett Brook Middle School to conduct two HPV vaccine clinics in 2025
- First clinic is scheduled in March
- Part of a larger research project led by Matt Dugan
